

Comments on Notice of Inquiry, ET Docket No. 13-84

August 30, 2013

Office of the Secretary, FCC

445 12th Street, SW

Washington, DC 20554

I have been injured by RF radiation that complies with current exposure limits.

In November 2008 I had just moved into a 9th Floor apartment between Harvard and M.I.T.

The third or fourth time I sat at the living room window and looked out at the view, after about 20 minutes I felt like I had been on a cell phone for about 2 hours.

I moved from the window and over to the other end of the apartment and the feeling went away.

However, later that day when I tried to use my cell phone it felt very uncomfortable.

Soon I could no longer use my cell phone at all without extreme disorientation and headache.

I was able to move to the 4th Floor but the damage had been done. I am no longer able to use a computer, stay under fluorescent lights, and can no longer work around electronics.

I had to leave the city because I could find no place to live where I was not overexposed to wireless frequencies.

Now I live in rural Arizona but they are building new cell phone towers and exposure is increasing again.

Please lower your exposure limits to protect the vulnerable of my generation and new generations.
